

HEAT PUMP TUMBLE DRYERS

A MAJOR TECHNOLOGICAL BREAKTHROUGH

FEATURES

DTB-11-18-23 HP

- Tumble dryer with Heat Pump technology.
- Construction in grey skinplate, stainless steel look.
- Big loading doors (opening of 180°).
- Double doorglass standard.
- STAINLESS STEEL DRUM: standard.
- SOFT DRY: The new drum perforations make sure the linen is gently handled.
- REVERSE ACTION: All models offer the reverse drum action.
- FULL SCREEN FILTER: New filter drawer with wide surface and improved airflow.
- High efficiency additional filter, category G4, to protect exchangers.
- ELECTRONIC CONTROL: Easy and intuitive to use, the electronic control offers a complete control of the process: it shows working temperature, remaining time and filter dirtiness.
- EFFICIENT DRY: The intelligent humidity sensor offers a precise control of the moisture in the linen. By this system the drying cycle will automatically stop when it reaches the set level of residual moisture.
- COOL DOWN: Anti-wrinkle at the end of cycle.
- DOUBLE FLOW: Mixed axial-radial airflow to optimise and maximise the airflow circuit in the drum.
- No need of exhaust to the exterior.
- Low energy consumption.
- Transmission by means of a direct drive through a gearbox, no pulley, lubricated for life.
- SELF-SERVICE models: to be connected to a central pay, or with integrated coiner.
- These models use water to refrigerate, which may be reused to wash.
